+27 73 745 3633 | [john@bearza.co.za](mailto:john@bearza.co.za) | [www.BearZA.co.za](http://www.BearZA.co.za)

**I'm a multi-skilled professional with a strong foundation in education, IT, and content creation.** I have over a decade of experience teaching and tutoring mathematics and GED High School subjects—from traditional classrooms to private homeschools and online platforms—I understand how people learn and how to adapt my approach to meet them where they are.

In parallel, I've worked as a freelance IT technician, explored coding and Linux systems, and built a YouTube channel, an Online Shop, and a photography business from the ground up. I enjoy learning, solving problems, and finding creative or unconventional ways to connect ideas and people.

I'm now looking to apply my skills in a role that values adaptability, critical thinking, and a willingness to explore new approaches—whether that's in training, tech, conservation, or something unexpected. I don't claim to have all the answers, but I do bring curiosity, commitment, and the ability to learn fast and deliver what's needed.

***If opportunity does not knock, go out and build a door***
